

PRIVACY NOTICE

Periodically, companies ask Equitable Gas for customer lists that include account information, such as your name, billing address, mailing address, account number, rate class and historical gas usage data. These companies want to market products that may interest you as a natural gas customer. Even if you choose to share your information, we **do not** release your telephone number.

Your privacy is important to us. You can choose to restrict the release of your information.

If you do not want Equitable Gas to share your information, you must notify us.

There are two ways to do this:

1. Call us toll free at **1-866-661-0251** and follow the prompts.
2. Complete the information on the back of this form and return it with your payment coupon.

You may request that we not release any of your account data on future lists. Or you may wish to share all information except your historical gas usage. The choice is yours.

If we do not hear from you, we will include your account information when companies request customer lists in the future.

The message area on your bill this month shows your customer privacy status. You only need to call us or complete the form on the back if you want to change your current listing.
